	<p><b>Collis Curve - the toothbrush for the disabled</b></p>  <p>Disability comes in many forms and offers many challenges to good dental health. Something as simple and as painful as arthritis of the hands means that people find it very difficult to duplicate the rather complicated brushing techniques taught by dentists. Deteriorating vision may mean that people have to rely on simple sensation when they come to attend to tooth brushing. These afflictions are two simple examples of a gamut of the kind of disabilities that compromise an individual's independence.</p> <p>The Collis Curve acts very positively in these circumstances. As long as the brusher can get the toothbrush into their mouth and move it backwards and forwards it will provide thorough cleaning</p>	<p><a href="http://www.colliscurve.co.uk/site/1.asp">http://www.colliscurve.co.uk/site/1.asp</a></p>

	<p>We are here to help you to get dressed not stressed!</p> <p>At Rackety's we are proud to be different, we can't really call ourselves a fashion business and we're not exactly a healthcare business either. We simply set out to add some normality and bit of sparkle to the rather grey world of adaptive clothing.</p> <p>We understand that when you live with a disability you will generally shop for your clothing exactly the same as everyone else, but there are a few areas where regular clothing just does not work, this can be a daily nightmare. Our passion is to fill the gaps with high street quality disabled clothing specially designed to help when you get completely stuck.</p> <p>Special needs clothing that blends in with your regular wardrobe and works with you not against you.</p> <p>Clothing for disabled adults and disabled kids to enjoy!</p>	<p><a href="http://www.disabled-clothing.co.uk/">http://www.disabled-clothing.co.uk/</a></p>
